

Remote control for Yi Camera

The remote control is designed to control Yi Camera

2. Using of the remote control

Pair

After double clicking Wifi button, you will hear the sound, and then the blue LED will light up. Log in connection mode via Bluetooth.

Press the shutter button, then you will hear sound, and at the same time illuminates a blue LED that indicates successful pairing.

After this, you no longer need to re-connect to the remote control. One click on the shutter button - and you can begin to use the camera. The red light indicates an error in pairing of two devices.

3. Shooting

Camera mode: press the shutter button.
Video mode: press the shutter button to start/stop shoot video.

4. Changing the batteries

Remove the rubber rim

Rotate the back panel

Turn up the back cover and then change the battery. You can use a coin so that you can easily turn the back cover, and then remove it.

5. Setting the remote controller to a monopod

1 Open the clamping set

2 Install/ remove controller
