

Thank you for choosing YI 4K Action Camera
Waterproof Case

1. Mounting the waterproof case with selfie stick kit

2. How to use the waterproof case

Slide the button downward, and pull the flap outward at the same time

Push the flap down and out to unlatch the backdoor

Pull the backdoor downward to open

Line camera lens and insert into the waterproof case until it fits snugly into the lens case

Close the backdoor and latch the flap on the edge of the backdoor. Press the loose end of the flap against the case to securely lock the case

The camera is now airtight fit inside the waterproof case

Tip : After using in salt water, safely remove the camera and wash the waterproof case with fresh water.
